REASONS FOR ALLOWANCE

Claims 156-161 are allowed.

The following is an examiner's statement of reasons for allowance:

The subject matter of the independent claims could either not be found or was not suggested in the prior art of record. The subject matter not found was the first and fluid balancing system comprising second chambers being configured to displace fluid mutually such that as one is filled, fluid is forced out of the other and vice versa, and wherein an incoming fluid supply mechanism delivers fluid into the first chamber during a first cycle to entirely fill said first chamber and thereby displacing outgoing fluid from the second chamber, and an outgoing fluid supply mechanism that supplies outgoing fluid to the second chamber during a second cycle such that the second chamber is only partially filled with fluid, thereby displacing an equal volume of incoming fluid from the first chamber, in combination with the other elements (or steps) in the claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
